Professional Summary

I am a Web & Software Engineer with 2 yrs of experience working in web, software & google ads. My Strength is to put 110% into whatever task I take up.

Experience

Software Developer | Creative Pixel - Jaipur | 05/21 - 03/2023

- Develop new features and maintain existing software using React, PHP & Node.js
- Worked with third-party APIs to integrate external systems into the platform.
- Build a CRM Product for our Company to manage clients & employees.
- Develop REST APIs for E-commerce Mobile Apps.
- Increased software performance by 30% by optimizing code.

Languages & Technologies

- **Front-end:** HTML, CSS, Javascript, ReactJs, Redux, jQuery**.**
- **Back-end:** Php, MySql, NodeJs, MongoDB, Firebase**.**
- **Tools**: Git, Figma, Adobe XD.

Projects

Movix **(Live link -- Source Code)**
- Developed a user-friendly website using ReactJS and Redux that included features such as lazy loading, infinite scroll, React Player, React-Circular-Progressbar, Dayjs, and search bar.
- Utilized lazy loading and infinite scroll features to improve website performance and user experience, allowing for faster load times and easier browsing of large amounts of content.

YouTube Clone **(Live link -- Source Code)**
- Built a YouTube clone web application using **React.js & YouTube API**, utilizing npm for package management.
- Designed and developed various features such as search functionality, video player, and recommended videos.

Google Clone **(Live link -- Source Code)**
- Developed a Google clone web application using **React.js & Google API**, leveraging **Vite as the bundler for the project.**
- Implemented various features such as search functionality, title change, image & pagination, and search results display, utilizing Google's APIs to retrieve and display relevant data.

eCommerce **(Live link -- Source Code)**
- Developed an online shopping web application using **React.js & Firebase**.
- Implementing features such as **product catalog, shopping cart, and checkout process** with **COD & Online Payment**.
- Implemented user authentication functionality with **login and signup features**, leveraging Firebase's authentication system for secure and efficient user management.

Education

Rajasthan university | Bachelor of Computer Application - Jaipur | 2020 - 2023
